Welcome

Missouri's healthcare leaders welcome you to our Web site. We hope that you will take some time to explore the resources on this site – and our national counterpart site at www.Secure4Health.org – so that we can help answer your questions about health information exchange (HIE) initiatives.

In particular, you will find information on the security and privacy issues around HIE efforts. We'd also like to share information on how participating in HIE can benefit you and your patients by promoting quality, efficiency, and effectiveness in your practice.

A welcome message from Missouri Physician Champion, Dr. Sharon Hoffarth (00:33)

For a listing of Missouri's HISPC Steering Committee comprised of thought leaders from the public and private sectors, [please click here](#).

Missouri's participation in the Provider Education Toolkit (PET) collaborative has led to the development of this Web site and informational messages distributed to Missouri healthcare providers via our partnering professional associations' Web sites, e-mail blasts and peer-to-peer presentations.

For additional information on health information exchange, [please click here](#).

Missouri's participation in the Harmonizing State Privacy Law (HSPL) collaborative has led to the development of an analysis of Missouri state law related to the privacy and security of healthcare information.

To view the Comparative Analysis Matrix (CAM) which presents this work, [please click here](#).

MISSOURI GETS CONNECTED

Missouri's HISPC Steering Committee is aware of a number of promising HIE initiatives underway or in development in the state. These include:

- [CareCentral](#) in the Greater Kansas City Metropolitan Area
- [KC CareLink](#) in Kansas City
- [Kansas City Quality Improvement Consortium \(KCCQIC\)](#) in Kansas City
- [MO HealthNet](#) in Missouri's Department of Social Services
- [St. Louis Regional Network Master Patient Index \(RMI\)](#)
